Related Documentation: Thrusafe® Modular Folded Platforms Assembly and Operating Manual (ORV 393)

The new Thrusafe® Modular Platform is a power swing stage for use in confined space applications, such as boilers and vessels. This unit breaks down to fit through openings as small as 18". Both the platform and stirrups disassemble and easily reassemble – no special tools are required.

### Features and Benefits

- Versatile: Available in 1, 2, and 3 meter lengths.
- Adaptable: Upper guardrails are removable.
- Strong: Rated capacities, up to 1,500 lbs., same as standard Skysafe® "Rigid" and "Knock-down" modular platforms.
- Collapsible: Fits through an 18" diameter opening.
- Easy to Assemble: One-piece hinged floor deck and gravity pin & lanyard connections for fast and easy assembly.
- Complete: Knock-down stirrups include casters.
